RE: Specialty Metals Self Certification

To Whom It May Concern:

SPS Technologies – Jenkintown Plant certifies that within the calendar year of 2016 more than fifty percent (50%) of our purchases of “specialty metals” as defined by 10 USC 2533b are or will be made from domestically melted specialty metals. Therefore, we consider the commercial fasteners manufactured by our company to be in compliance with 10 USC 2533b(h)(3).

Applicable documentation supporting this claim will be made available to the appropriate parties upon submittal of a written request. Documentation will be sent within thirty (30) days of receipt.

If you have any further questions, please feel free to contact us any time.

Sincerely,

A handwritten signature in cursive script that reads "Julie Kline".
