Re: "Specialty Metals" Certification

To Whom It May Concern:

SPS Technologies, Santa Ana, certifies that within the calendar year 2012 more than 50% of our purchases of "specialty metals" as defined by 10 USC 2533b are or will be made from domestically melted "specialty metal". Therefore, we consider the commercial fasteners produced by our company to be in compliance with 10 USC 2533b(h)(3).

Applicable supporting documentation will be made available to appropriate parties upon request with 30 day notice.

Sincerely,

A handwritten signature in black ink that reads 'Amol More'. The signature is written in a cursive style with a horizontal line underneath the name.
